The Dewar Trophy is awarded annually in England to the car—selected from world competition—embodying the greatest advance in automobile engineering for the current year.

### Cadillac Two-Speed Axle Turned the Trick

Its Service on 8,000 Cars Already Delivered Justifies This Splendid Award

#### "Motor Age" gives this opinion:

Adoption of the two-speed rear axle by one of the larger makers of motor cars for the coming season may be taken as a criterion of the efforts that are general throughout the industry toward the easier maintenance. In this case, the ease of maintenance attained is indirect, but none the less present. The effect of doubling the number of speeds obtained in the gear-set is believed to make for longer life of the motor since it need not be worked on a hard pull or made to turn over so rapidly at high car speeds. In other words, the increased flexibility of the power plant is expected to result in its greater useful life.

#### "The Motor," a prominent British automobile authority, comments:

We have always held the Cadillac in the highest esteem, and admired it as a criterion example of high-grade American construction. The charm of the dual drive to the rear axle is compelling and entrancing, and as one merely touches the little lever at the side and, on depressing and allowing the clutch to raise, finds a higher direct drive available, wonderment is aroused as to the undoubtedly simple manner in which so great an advantage has been brought about.

The luxury of driving a touring car at 20 or 25 miles an hour with a direct drive and final gear ratio of 2.5 to 1 is quite a new fascination.

#### "The Autocar," one of the leading motor publications of Great Britain, has this to say:

When the Cadillac system of combining ignition, lighting and engine starting in one electrical system was introduced two years ago it was very properly regarded as a bold step and it was certainly the most interesting innovation which had been made for a long time, while experience has shown it to be as successful as it was bold. Today the Cadillac designers have made another innovation, which, personally, we regard as even a greater improvement than the very important one of two years ago.

After once experiencing the delight of two direct and noiseless drives one feels that it is difficult to outline an ideal car which does not contain this feature, and we feel safe in asserting that the Cadillac successful reintroduction of an old idea will be followed by other makers.

#### "Horseless Age" says:

It seems at least possible that the two-speed axle may confer upon the four cylinder car sufficient flexibility and accelerative ability, without recourse to noisy geared speeds, to satisfy the public demand for these qualities, and, if this should prove to be the case, the demand for six-cylinder cars, with their somewhat more costly, more bulky, more complicated and less economical motors, might be materially reduced. It can hardly be doubted that the advent of the double-direct drive is one of the most important happenings of recent years in the automobile industry.

#### THE COLUMBIA THEATRE TO OPEN SATURDAY

The Columbia Theatre, which has been closed for several weeks, will be opened again on Saturday, March 14, at 2 o'clock. When the people of this city enter this theatre they will be surprised at the many improvements which the owners have made on the interior. The old floor has been torn away and replaced with a new one, which slopes down to the orchestra pit, and in this way each and every patron can see the picture on the screen without the least trouble. A new Radium Gold Fibre screen has been placed in this theatre, also a piano made especially for moving picture houses. A new and one of the very best moving picture machines, the Powers 6 A, has been installed in the picture booth, which will do away with much of the flickering and the jumping of the pictures while in motion. The three iron posts which

were so unsightly and inconvenient to patrons of The Columbia have been removed from the interior. The seating arrangement has been entirely changed. Broad, safe aisles have been made; side exits as well as two front exits; powerful 32 inch exhaust fans, which change the air every three minutes; two large windows on the side and front transoms over each door, as well as air vents placed below the floor will make The Columbia one of the best ventilated and safest theatres in this section. The entire room has been redecorated and changed. Only the very best grade of pictures will be used in this house. The Mutual Film Corporation has arranged to give The Columbia a well-balanced program of pictures each week. Competent and experienced help will be in charge of The Columbia, and the owners can assure the public that this theatre will be conducted in the right way, and will at all times show only the best grade

#### THE MARKETS.

##### Chicago Grain.

CHICAGO, March 12.—Wheat closed steady at one-quarter at three-eighths net decline. May closed at 93 1-8c and July at 88 1-8c. Corn closed one-eighth at one-quarter, three-eighths net lower, at 66 7-8c for May and 66 1-2c for July. Oats closed easy, at 39 3-8c for May and 39 3-8c for July. #### BECKHAM'S LEAD IN HARDIN.

As an evidence of the strength former Governor Beckham is gaining in his race for the United States Senatorship is shown in newspaper reports that are being sent out from all sections of the State. Since the announcement that he would become a candidate there has never been more enthusiasm displayed by his followers with the result that throughout the State there seems to be a wave of support sweeping to the former chief executive of the State.

Mr. Beckham will open his campaign at Elizabethtown on next Monday, when it is expected he will so impress the voters of that county that here will be no doubt as to the result of the primary next August. Already county that he is well off in the lead and holding a safe position against Stanley, Smith and McCreary. The following newspaper dispatch gives an idea of his dormant strength.

"A month ago well-posted observers of the Senatorial situation agreed that the vote in Hardin county would be a tight fit between Beckham and Smith, with Stanley a poor third and Gov. McCreary nowhere.

"Today there is a different story to tell. It is Beckham first and running easy. If Mr. Smith stays in the race he will be the second man among Hardin's 3,000 Democratic voters, but he will muster at least 400 less of them than Mr. Beckham.

"The announcement that Gov. Beckham was to open his campaign in Elizabethtown set his friends talking. While other candidates were on the stump, Mr. Beckham, until he made the recent announcement, had done nothing to arouse any enthusiasm among his followers. Today his strength, which has been dormant, is apparent on every side.

"His old-time followers are still with him, and he is gathering hundreds who were not for him before. With Mr. Smith out of the way, Mr. Beckham would have over 2,000 of the votes in Hardin county. The same situation is said to exist in all quarters of the Fourth district, except that Mr. Smith would be able to make as formidable showing in several counties as he will in Hardin."

#### BEAUTIFUL MILLINERY.

My stock of Spring millinery that will be on display on March 19, at our annual opening, is the prettiest line that could be purchased in Chicago. #### PARIS MAN TO ESTABLISH BAKERY IN MT. STERLING

Mr. George Rassenfoss, of this city, will shortly move to Mt. Sterling to reside and where he will engage in business. Mr. Rassenfoss has rented the Gibbons storeroom on Maysville street and will establish a restaurant and bakery in that city within the next few weeks.

Mr. Rassenfoss was formerly engaged in the bakery and restaurant business in this city, but retired from the retail trade to engage in farming. Recently he disposed of his farm on the Georgetown pike, near Paris.

Mr. Rassenfoss is one of the best-known business men in Paris, and is an energetic and capable gentleman. His many friends in Bourbon will regret to learn that he has decided to locate in Mt. Sterling.

#### CHARLES BRYAN DIES AT HOME IN MILLERSBURG

A message was received from Millersburg last night announcing the death of Mr. Charles E. Bryan, which occurred last night at eight o'clock following an illness of about two days.

Mr. Bryan was taken suddenly ill at the Taylor House Wednesday and was unable to be removed from that place to the rooms he occupied. Since he was stricken his condition has been very serious and little hopes were entertained for his recovery. Heart disease and stomach trouble was the direct cause of his death.

Mr. Bryan was unmarried and was about forty-four years of age. He was well-known in Paris. He possessed considerable property.

His nearest relative is an uncle, W. C. Owens, of Louisville. The funeral arrangements have not been made.

#### WOUNDS PROVE FATAL TO ED. S. McNAMARA

As the result of pistol wounds inflicted with suicidal intent at his apartments in Lexington, Saturday night, while despondent over ill-health, Edward S. McNamara, aged forty-one, member of the widely-known McNamara family, died at St. Joseph's Hospital, in Lexington, at 4:30 o'clock Wednesday morning, without ever regaining consciousness or being able to explain his act.

The tragedy is the last of a series of violent deaths which overtook the male members of the family, following the shooting of Jacob Keller by King McNamara, now serving a sentence in the State Reformatory for the crime.

Thomas McNamara was shot and killed by a man named McNamee. J. B. McNamara, another brother, met a similar death, being killed by P. T. Maher. Another brother, Andrew McNamara, died suddenly about two years ago under somewhat doubtful circumstances.

#### GRAND OPERA HOUSE TO OPEN FOR SEASON MONDAY NIGHT.

What promises to be one of the events of the theatrical season will be the opening Monday night of the Grand Opera House in this city under the management of the Colonial Amusement Company, which recently closed a deal for the lease of the theatre.

On the occasion of the opening of the Grand, the company will present some of the best motion pictures and in addition to this there will be the added attraction—Greggs' ten-piece orchestra.

The Gregg orchestra will be remembered as having been one of the attractions at the Alamo Theatre several months ago and is engaged at the Colonial Theatre in Lexington. It is the purpose of the management of the Grand to have this orchestra in Paris every Monday night during the summer as one of the features of the bill that will be offered during the spring and summer.

During the past two weeks the opera house has undergone a thorough renovation and has been made very attractive throughout. Beginning with Monday night three reels of high class motion pictures of the same service that is being used at the Alamo and in the other theatres controlled by the Colonial Amusement Company in Central Kentucky will be presented.

Once a week a feature picture will be presented. The prices will be ten cents for adults and five cents for children in either the lower floor or balcony and five cents in the gallery.

#### WEST POINT COMPLAINT IGNORED BY GARRISON

A dispatch from Washington, Tuesday, said:

"Unless specifically directed by President Wilson, the War Department will not reopen the case of Jas. W. McClure, of Paris, Ky., who was excluded from appointment as a cadet at the West Point Military Academy, thereby leading his father to prefer charges against Major General Thomas H. Barry, former Superintendent, and Major Fred W. Slayden, commandant of the cadets, of making false official statements in the matter.

"Ex-Senator Paynter, who had interested himself in the case, has been informed by the War Department that the academic board reported that McClure had resigned his cadetship to escape trial, which fact had been regarded sufficient to warrant the disapproval of his application for a new appointment.

"The case was presented to Secretary of War Garrison by James McClure, cashier of the First National Bank at Paris, Ky., who alleged his son was refused admittance to the academy."

#### EFFECT OF NEW INSURANCE LAW IS BEING WATCHED

The effect of the new insurance law passed by the present Legislature and which has been signed by Governor McCreary, is being watched with a great deal of interest in Paris.

Many local bankers and financiers are regarding with alarm the withdrawal from the State of a large number of the largest fire insurance companies, and through the new law they view serious complications in regard to loans, especially those made by the banks of the city on real estate and personally.

There are in this city fifteen insurance agencies representing practically every company doing business in the State and every one of them have received notices to suspend business, and not accept any more risks. Only a few of the companies are now doing business.

It is said the new insurance rating bill will have the effect of impairing the credit of financial institutions, as it is impossible for them to make loans upon property that cannot be secured by insurance. This will work a serious hardship on the number of home builders and others who have secured loans on stocks of goods.

Local insurance men are of the opinion that the suspension is only temporary and when the effects of the withdrawal of the insurance companies is felt in the fullest extent, there will be some action on the part of the State officials to allow the insurance companies to resume business.
